3.	Representative from DMA, Govt of Karnataka.	Member

Members Convener:

1.	Sri K.N. Shivalinge Gowda, Senior Environmental Officer, Infrastructure Cell, KSPCB, Bangalore.	Present.
----	--	----------

In continuation of the proceedings of the 1st meeting of the committee, held on 20.6.2019, the 2nd meeting was conducted on 6.7.2019. The Hon'ble Chairman of the committee welcomed the members and the Senior Environmental Officer, KSPCB and Member Convener of the committee. Since the Directorate of Municipal Administration has not nominated a member on the committee, the Chairman requested the Member Convener to once again contact the Directorate of Municipal Administration to nominate a member on the committee. The members who were attending the meeting for the first time were informed about the purpose of the and the Terms of Reference of committee, by the Member Convener.

Since the purpose of the committee is to evaluate the technologies for the onsite processing of wet wastes generated by bulk generators and individual households, it was decided to invite proposals from various agencies who possess technologies for the onsite management of wet waste generated by bulk generators and individual households, for the evaluation by the high level technical committee. It was decided that the proposed technology should be implementable across a large domestic segment, and in conformity with the Solid Waste Management Rules, 2016. It was further decided that the short listed technologies shall be called for making a presentation before the high level technical committee at a later date, so that such technologies could be evaluated by the committee and technologies that meets the guidelines prescribed in the Terms of Reference (ToR) can be recommended to the KSPCB. The KSPCB was therefore asked to provide wide publicity to this effect by advertising in two national and vernacular dailies each and also give wide publicity in the web portal of the Board. The meeting concluded with a vote of thanks from the Member Convener of the committee.

Draft approved by

Chairman of the Committee through e-mail

Senior Environmental Officer

Paper Notification

The KSPCB has constituted a high level technical committee to evaluate various technologies available for on-site processing of wet waste by bulk generators and individual households. In this regard proposals are invited from various agencies who possess technologies for the onsite management of wet waste generated by bulk generators and individual households, for the evaluation by the high level technical committee. The proposed technology should be implementable across a large domestic segment, and in conformity with the Solid Waste Management Rules, 2016. Interested agencies may send a brief writeup (not exceeding 2 printed A 4 size pages), highlighting the salient features of the technology and the expertise of the agency, to the Member Convener of the committee by e mail (infra2013@yahoo.in / infra@kspcb.gov.in), on or before dated: 25.07.2019. Short listed technologies shall be called for making a presentation before the high level technical committee at a later date.
