

## EXECUTIVE SUMMARY

### INTRODUCTION

Hutti Gold Mines Co. Ltd., has applied for TOR in order to prepare EIA report for grant of Environmental Clearance as per MOEF Notifications S.O. 1533(E) dated 14-09-2006 for extraction of Yadivala Sand Block (Block No.1) having leases area of 40.00 Acres located adjacent to Sy. No - 66 & 65/2 Yadivala Village, Manvi Taluk, Raichur District, Karnataka.

As the proposed project is coming under cluster situation and in the cluster as the total area extent is greater than 5 Ha & as per the Hon'ble NGT order dated 13th September 2018 and 11th December 2018 it is considered as "B1" category. The application to grant prior Environmental Clearance for the proposed project was considered by the KSEAC in its 265th SEAC meeting dated 01<sup>st</sup> September 2021. SEAC for determination of the Terms of Reference (ToR) for preparation of the Environmental Impact Assessment (EIA) report. The Committee has suggested specific Terms of Reference (ToR) for preparation of the EIA report and Environmental Management Plan and for conducting public hearing vide its letter No. SEIAA 350 MIN 2021.

### Location of the Project

The Sand Block with an extent of 40-00 Acres of quarrying lease area located in Sy. No. 66 & 65/2 Yadivala Village, Manvi Taluk, Raichur District, Karnataka.

**TABLE 1: SALIENT FEATURES OF THE PROJECT SITE**

Sr. No.	Particulars	Details		
1.	Latitude/Longitude	Corner Point No	Latitude	Longitude
		BP-A	N 15 <sup>0</sup> 51' 08.05"	E 77 <sup>0</sup> 01' 44.99"
		BP-B	N 15 <sup>0</sup> 51' 01.12"	E 77 <sup>0</sup> 01' 52.94"
		BP-C	N 15 <sup>0</sup> 51' 18.74"	E 77 <sup>0</sup> 01' 59.16"
		BP-D	N 15 <sup>0</sup> 51' 25.39"	E 77 <sup>0</sup> 01' 52.15"
		<b>WGS - 84 DATUM</b>		
2.	Site elevation above MSL	341m to 340m MSL		
3.	Land use at the proposed project site	<b>Type of land use</b>	<b>Existing / present (Acre)</b>	<b>End of lease (Acre)</b>
		Area to be Excavated	--	36.88
		Buffer Zone	--	3.12
		Area Un-utilized	40-00	--
		TOTAL	40-00	40-00
4.	Nearest roadway	NH 167 - 26.20 Kms (SE) (Raichur to Ballari Road) SH 14- 2.90 Kms (NW) (Manvi to Sindhanur road)		
5.	Nearest Railway Station	Kosgi Railway Station - 21.80 Kms (E)		

Sr. No.	Particulars	Details
6.	Nearest Railway line	Kosgi Railway Station – 21.80 Kms (E)
7.	Nearest Air Port	Ballari Airport 73 km (S)
8.	Nearest village/major town	Yadivala Village – 1.00 kms (NW)
9.	Hills/valleys	No major hills and valleys within 10 km radius
10.	Ecologically sensitive zone	None within 10 kms
11.	Reserved/ Protected forests	None within 10 kms
12.	Historical/tourist places	None within 5 km radius area
13.	Nearest Industries	None Within 10kms.
14.	Nearest water bodies	This is a river sand mining project. The site is in Tungabhadra River Bed

## PROJECT DESCRIPTION

### Method of Quarrying

An open cast method will be adopted to operate the area. Since, the annual production is about 1, 67,890 Tons per annum for five years; the Open cast method will be followed during the plan period.

### Anticipated life of the quarry

Life of the quarry in this is not applicable, as the extraction and replenishment is a continuous process. Depletion and addition of ordinary sand is to be balanced by keeping the production level always low comparing to the replenishment.

### Conceptual Quarry Plan

Based on reserves of River Sand as Production capacity of 1,67,890 Tons per annum for the 5 years plan period.

### Waste Generation & Disposal

There is no such reduction of waste / mineral reject processing possibilities are proposed during plan period. There is no proposal of dumping during the proposed ensuing quarrying period, & concurrent backfilling is proposed.

### Water Requirement & Source

Total water requirement for the project will be 24.4 KLD, Requirement is met by procurement of water from the bore well nearby Tankers.

### Manpower Requirement

The said quarry provides direct employment to 20 people and generate indirect employment for 40 more people. Most of the directly employed manpower falls under skilled category Preference will be given to the local people as per their eligibility.

Lessee: Hutti Gold Mines Co. Ltd.

### Site Infrastructure

The quarry stock yard will have its own office premises, canteen, first-aid center etc. Quarry office is well connected with wireless and telephone, internet & e-mail facilities for communication.

## EXISTING ENVIRONMENTAL SCENARIO

### Baseline Environmental Studies

### Meteorology & Ambient Air Quality

#### Summary of Meteorological data generated at site (October 2021 to December 2021)

Temperature (°C)	23.2 to 34.3°C
Relative Humidity (%)	88 to 44%
Wind Direction	WSW
Calm wind %	14.46%

### **Ambient Air Quality Status**

From the results, it is observed that the ambient air quality with respect to PM<sub>10</sub>, PM<sub>2.5</sub>, SO<sub>2</sub>, and NO<sub>x</sub> at all the monitoring locations is within the permissible limits specified by CPCB.

### **Ambient Noise Levels**

Ambient noise level monitoring was carried out at the 9 monitoring locations; those were selected for ambient air quality monitoring. The monitoring results are within limits.

### **Biological Environment**

There is no National Park, Wildlife Sanctuary and Biosphere Reserve within 10 km radius.

### **Proposed Biological Environment Conservation Measures**

- Thick Green belt will be developed around Quarry lease area and along transport road.
- Periodic maintenance of mineral transport road
- Regular sprinkling of water through mobile tanker on mineral transport road
- Mineral carrying trucks are loaded with only the stipulated quantity to avoid overloading and covered with tarpaulin to avoid spillage.

### **Socio-economic Environment**

- There is no habitation or private land in the River Sand. There is no rehabilitation and resettlement involved in the project.
- The said Quarry provides direct employment to 20 people and generates indirect employment for 40 more people. Most of the directly employed manpower falls under skilled category and the respective distribution / numbers is follows. Preference will be given to the local people as per their eligibility.
- The existing infrastructure facilities are sufficient to cater the needs of the Sand Block. However, the Quarry management will take efforts as a part of CER for improvement in civic amenities like sanitation, drinking water facilities, transport road, etc in the nearby villages.

### **ENVIRONMENTAL MONITORING PROGRAM**

An Environmental Management Cell (EMC) will be established in the Quarry under the control of Quarry Manager. The EMC will be headed by an Environmental Officer having adequate qualification and experience in the field of environmental management regular and periodic. Environmental monitoring of Ambient Air Quality, Water table depth, Water quality, Ambient Noise Levels, Soil Quality, CSR activities etc will be carried out through MOEF accredited agencies and reports will be submitted to KSPCB/ Regional office of MoEF&CC.

### **RISK ASSESSMENT & DISASTER MANAGEMENT PLAN**

The assessment of risk in the Sand Blocking project has been estimated for Slope failure, Movement of HEMM, Inundation due to surface water, Dust hazards, Hazards associated with use of Diesel Generator Sets and flooding of lower benches and corresponding mitigation measures are suggested in the EIA/EMP report.

## **PROJECT BENEFITS**

The Sand Blocking project would generate additional employment opportunities which would finally result in improvement in the quality of life of people of the nearby villages. In line with this CER policy, Hutti Gold Mines Co. Ltd., will carry out community welfare activities in the following areas:

- Community development
- Education
- Health care
- Drainage and sanitation
- Roads

A budget of Rs. 20.46 Lakh per annum as recurring expenses has been proposed for implementation of Socio-economic welfare activities in the nearby villages.

## **ENVIRONMENTAL MANAGEMENT PLAN**

Judicious use of the environmental management plan addresses the components of environment, which are likely to be affected by the different operations in the project. The capital cost of the project is approx. Rs 6.76 Lakhs. It is proposed to provide an amount of Rs. 20.46 Lakhs per annum as recurring expenses towards implementation of the environmental action plan.

## **CONCLUSION**

The Sand Block project of Hutti Gold Mines Co. Ltd., will be beneficial for the development of the nearby villages. Some environmental aspects like dust emission, noise, siltation due to surface run-off, etc. will have to be controlled within the permissible limit to avoid impacts on the surrounding environment. Necessary pollution control equipment like water sprinkling, plantation, personal protective equipments etc., will form regular practice in the project. Additional pollution control measures and environmental conservation measures will be adopted to control/minimize impacts on the environment and socio-economic environment of the area. Measures like development of thick green belt and plantation within quarry lease area and along transport road, adoption of rainwater harvesting in the quarry etc. will be implemented. The CSR measures proposed to be adopted by the quarry management will improve the social, economic status of the nearby villages.

The overall impacts of the Sand Block will be positive and will result in overall socio-economic growth of nearby villages.
