3. Poultry Farming Process	04
3.1 Breeder Farms	05
3.2 Hatchery Farm	05
3.3 Layer (Egg Production)	05
3.4 Broiler	06
3.4.1 Deep Litter System	06
3.4.2 Cage System	06
4. Classification of poultry farms	06
5. Environmental issues & Current practices to address the environmental issues in Poultry Farms	07
(i) Gaseous emission (NH ₃ & H ₂ S) and Feed Mill Dust	07
(ii) Solid Waste	07
(iii) Waste water generation from cleaning operation	08
(iv) Other issues	08
6 Environmental Guidelines for Poultry Farms	08
6.1 Gaseous emission (NH ₃ & H ₂ S) and Feed Mill Dust	08
(i) Minimization of odour/gaseous pollution	08
(ii) Dust from Feed Mills	09
6.2 Management of solid wastes (Solid Wastes contains Manure/litter, Hatchery Debris and Dead Birds)	09
(i) Manure handling and disposal	09
(ii) Hatchery waste	10
(iii) Dead bird disposal	10
6.3 Waste water Management	11
6.4 Other Issues	12
7 Siting criteria	12
8 Regulatory/ Monitoring Mechanism for Poultry Farms	13

1.0 Background

Guidelines for Poultry farms were developed in the year 2015, which was applicable to poultry farms handling above 1.0 lac birds. As per CPCB classification of industrial sectors, 'Poultry, Hatchery and Piggery' are categorized into 'Green'.

In the matter of O.A. No. 681 of 2017, Hon'ble NGT, passed the following order on 16th September, 2020:

'...Accordingly we allow this application and direct CPCB to revisit the guidelines for categorizing the poultry farms as Green category and exempting their regulation under Air, Water & EP Act. CPCB may issue fresh appropriate orders within three months and in if no further order is issued, all the State PCBs/PCCs will require enforcement of consent mechanism under the above acts after 01.01.2021 for all Poultry Farms above 5000 birds in the same manner as is being done for farms having more than one lac birds. Till then, even without such consent mechanism, the state PCBs/PCCs may strictly enforce the environmental norms and take appropriate remedial action against the any violation of water, air and soil standards statutorily laid down.'

To comply with the Hon'ble NGT, CPCB has constituted an Expert Committee comprising members from Department of Animal Husbandry, ICAR-Directorate of Poultry Research, Shri N.K. Verma, Ex. AD, CPCB, Haryana State Pollution Control Board, Tamil Nadu State Pollution Control Board & Central Pollution Control Board.

2.0 Poultry farming

Poultry farms refers to breeding, hatcheries, layer and broiler farms. Poultry farming is the rearing of domesticated birds such as chickens, turkeys, ducks, goose etc. for the purpose of farming meat or eggs for food. Chickens raised for eggs are usually called laying hens or layers while chickens raised for meat are often called broilers. Chicken are most numerous and popular domesticated poultry species, while other species, e.g. duck, goose form a very small proportion of activities in comparison. Poultry farming in India has witnessed a spectacular growth and transformed itself into a vibrant agri- industry. The leading states having poultry farms are Tamil Nadu, Andhra Pradesh, Telangana, West Bengal followed by Maharashtra, Karnataka, Assam, Haryana, Kerala and Odisha.

As per the 20th livestock census carried out by Department of Animal Husbandry & Dairying, Ministry of Fisheries, Animal Husbandry & Dairying, the state-wise number of poultries (birds) are given below:

Sl.No.	States/UTs	Nos of Poultries (birds) in millions
1	Andhra Pradesh	107.863
2	Arunachal Pradesh	1.599
